PROJECTS

Email Login Testing

Tools: Excle

Description: Conducted comprehensive manual testing of the Google email login functionality to ensure seamless and secure user authentication.

Key Contributions:

- Designed and executed test cases for various scenarios including valid/invalid credentials, password recovery, and multi-factor authentication.
- Performed exploratory testing to identify potential edge cases.
- Identified and logged bugs using JIRA, and collaborated with the development team to resolve issues.

Resume Builder

Technologies: HTML5, CSS3, Bootstrap, PHP, JavaScript

Description: Developed a web application to assist job seekers in creating professional and visually appealing resumes.

Testing Contribution: Designed and executed test cases for user registration, authentication, and PDF download functionalities.

Ensured cross-browser compatibility and responsiveness.

Cozy Coffee Shop Website

Technologies: HTML, CSS, JavaScript

Description: Designed and developed a website for a coffee shop to showcase menu items, events, and loyalty programs.

Testing Contribution: Performed functional testing and usability testing to ensure seamless user experience.
